

Welcome to the World of R-A-M[®]

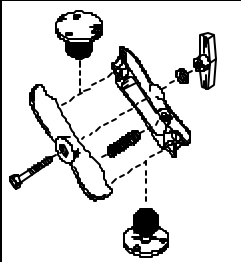

R-A-M is the revolutionary universal ball and socket mounting system that allows you to mount practically anything anywhere. Whether its in an aircraft, automobile, boat, ATV, truck, snowmobile, farming vehicle, motorcycle, fork lift or any other situation, R-A-M's family of over 200 interchangeable accessories will offer you solutions to your most challenging mounting problems. If you need to mount a GPS, camera, light, computer, cellular phone, speaker, mirror, antenna, or just about anything else look no further. R-A-M mounts will help you make a professional job easy and affordable. It's unique design provides easy installation, mobility, strength, versatility, vibration protection and durability, all at a low cost. R-A-M is backed by NPI's renowned Lifetime Warranty which makes it the mounting system of choice. To provide light weight strength and corrosion resistance, R-A-M is made of marine grade aluminum with a powder coated finish, stainless steel hardware and rubber balls. Accepted by the U.S. Patent Office, R-A-M is the only universal ball-and-socket system that holds tremendous amounts of weight in high vibration applications for military, commercial and private use. Visit the R-A-M web site at: www.r-a-m.nu to see the newest products and to learn more about this revolutionary mounting system that is quickly becoming the industry standard. National Products Inc. acknowledges the many people, like you, who helped develop R-A-M Mounting Systems. If not for this support, we couldn't provide a product line tailored to your specific needs. NPI wishes to offer a continuing thank you for this valuable resource and welcome any thoughts you have for future needs. Our commitment to you is to provide excellence in: quality products, customer service and prompt deliveries. At any time you want to talk, simply contact us and give us the opportunity to listen.

What is R-A-M[®]?

Simplicity without sacrificing function is the ultimate goal that design engineers strive for. With only eight components, Round-A-Mount's unique design has set a new standard for ball and socket arm technology.

R-A-M Ball Section View

R-A-M Balls are injection molded onto marine grade aluminum posts. The materials used to make the balls and posts may be varied to provide characteristics required for most any application.

The Hallmark of Simplicity!

How's R-A-M[®] Work?

	Step-1	
	Step-2	
Pinch here to open opposite end of arms		
	Step-3	

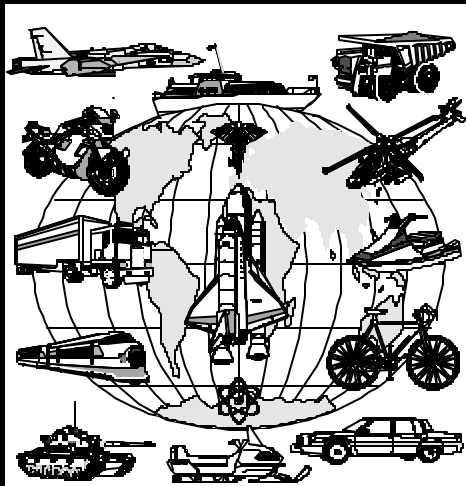

Easy as 1-2-3!

Why Use R-A-M[®]?

N.P.I. Lifetime Warranty		

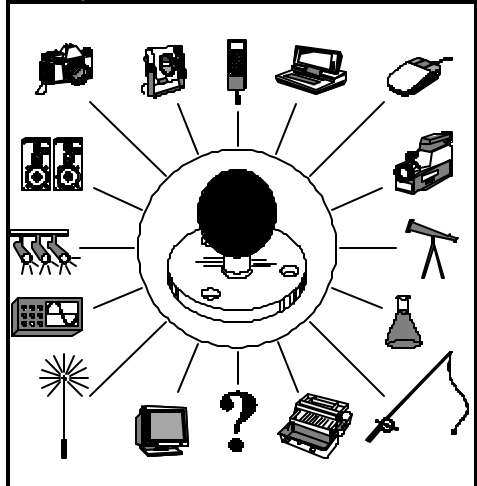

Satisfaction!

Where Use R-A-M[®]?

Anywhere!

What can you R-A-M[®]?

Limited Only by Your Imagination!

R-A-M[®] Sizes & Colors?

R-A-M Balls are currently available in four diameters: A-(9/16") B-(1") C-(1 1/2") & D-(2 1/4"). R-A-M components are scaled to the size of the ball.

D-Ball 10 3/4" High	C-Ball 7 1/4" High	B-Ball 4 3/4" High	A-Ball 2 1/2" High
-------------------------------	------------------------------	------------------------------	------------------------------

4 Ball Sizes, Any Color!
