VOTED 99's BEST PRODUCT OF THE YEAR BY AVIATION CONSUMER, USA

R-A-M is the revolutionary universal ball and socket mounting system that allows you to mount practically anything anywhere. Unlike other mounts on the market, R-A-M allows you to mount items where you need them most. Our yoke mounting systems gives the pilot an option of positioning the arm over or under the yoke depending on your specific requirements. If yoke mounting is not desired then R-A-M also fits that demand by enabling the pilot to attach a base with ball in a more convenient location. Then by simply turning a knob, the hand held device can be positioned for the very best viewing angle. Whether its in an aircraft, automobile, boat, ATV, truck, snowmobile, farming vehicle, motorcycle, fork lift or any other situation, R-A-M's family of over 175 interchangeable accessories will offer you solutions to your most challenging mounting problems. If you need to mount a GPS, camera, light, computer, cellular phone, speaker, mirror, antenna, or just about anything else look no further. R-A-M mounts will help you make a professional job easy and affordable. It's unique design provides easy installation, mobility, strength, versatility, vibration protection

and durability, all at a low cost. R-A-M is backed by NPI's renowned Lifetime Warranty which makes it the mounting system of choice. To provide light weight strength and corrosion resistance, R-A-M is made of marine grade aluminum with a powder coated finish, stainless steel hardware and rubber balls. Recognized and accepted by the U.S. Patent Office, R-A-M is the only universal ball-and-socket system that holds tremendous amounts of weight in high vibration applications for military, commercial and private use. Visit the R-A-M web site at: www.R-A-M.nu to see the newest products and to learn more about this revolutionary mounting system that is quickly becoming the industry standard. Remember when faced with a difficult mounting situation, **Just R-A-M It!**

RAM Seat Rail Mounting System holding a Garmin 295 GPS & a RAM Self Leveling Drink Cup Holder.

**Holds Strong!
Lifetime Warranty!
Just RAM It!**

RAM Seat Rail Mounting System holding a Garmin 295 GPS, a RAM Self Leveling Drink Cup Holder & a RAM Lap-Top Computer Tray.

Looking for a quick, easy and inexpensive way to attach items in your Cessna without drilling holes? Well RAM has your solution. It's the RAM Seat Rail Mounting System. Start with the RAM-B-131 RAM Seat Rail Base Mount and add either flexible or ridged pedestals or both to support a variety of items. Then attach either a single or double ball on the end of the pedestal. Follow that with a double socket arm and to top it off attach a RAM base with ball and accessory. Many multiple combinations are possible varying from, GPS, drink cup holders, lap-top computers, radios, lights, clip boards, etc. Start with just one item like a RAM GPS Holder and add to or change the system anytime with any RAM Compatible component. Have a rental plane or share a plane with other fellow pilots, RAM's the answer. Simply slide the RAM Seat Rail Base Mount down the seat tracks and tighten the 2 knobs. Its that easy, you'll be able to immediately enjoy the convenience of a better organized flight environment.
